

Avery Dennison has a network of fully trained distributors. There is one in your area who can answer your questions or quickly deliver the parts you need. For additional information or to help identify your needs, call a distributor today or call us and we will refer you to one.

For products with a fixed bundle diameter, use **Merchandise Pairing Ties™ and Stopper Ties**. These products have a unique “stop” which allows for a consistent bundle diameter, perfect when you want to prevent your bundle from being cinched up tightly.

Dimensions of head: Length: 11"/279.4mm, width: .140"/3.56mm, thickness: .040"/1.02mm

MORE SPECIALTY TIES...
PERFECT FOR PROTOTYPING OR FOR DOING TWO JOBS AT ONCE.

Double Headed cable ties can be used to bundle and position harnesses.

Double headed cable ties allow you to harness two bundles simultaneously or provide a means to position and anchor a single harness (shown below).

Releasable cable ties are used for prototype installations or for equipment requiring frequent modifications or service. Simply press tab to remove tie.

Releasable Cable Ties are easy to use and can be used again and again.
