Chameleon Headsets™ Adapt To Virtually Any Communication Products And Computer Sound Card Applications

Imagine a feature rich telephone headset...
engineered for maximum compatibility with
advanced design elements and the highest quality
standards... and you have Chameleon Headsets™

Many companies are talking about convergence,
'plug and play' products and building bridges between
technologies. Chameleon Headsets™ have been optimized
to adapt to the best of existing communication
and speech technology and demands of the future to
deliver the most versatile headset that others are
only dreaming about.

Adapting to Any Environment ...Nearly Every Technology

From today's home office to Fortune 100 companies,
people need their communication tools to be streamlined
and simple. They need to move seamlessly from their
corded or cordless headset amplifier, business system
telephone, cordless and mobile telephone and computer
sound card with one high performance headset.
Chameleon Headsets™ make it possible!

Packed with power and versatility, Chameleon Headsets™
deliver more comfort and functionality than any other brand.
Whether in use for a few calls or for a full day on line,
Chameleon Headsets™ enable you to hear more clearly
and sound more natural than ever before.

rapid release™ cords

Chameleon Headset™ Coiled Cord*

Designed for use with virtually every modular headset amplifier and "Headset Jack" equipped business system telephone on the market. **p/n***

Sold separately

**Coiled cord part number is based on the specific modular headset amplifier or "headset jack" equipped business system telephone you use.*

Chameleon Headset™ Patch Cord

Designed for use with all "headset jack" equipped cordless telephones, mobile telephones, and cordless headset amplifiers. **p/n 1103** Comes standard with each Headset.

Note: Most mobile telephones come equipped with a 2.5mm jack for hands-free convenience. Others however, may require the use of an adapter.

Chameleon Headset™ PC Cord

Designed for use with any Computer Sound Card and sound card application. Applications include Computer Telephony, Voice over Internet applications, Speech recognition software, Voice E-mail, PC Video Conferencing, Digital Recording, Computer Gaming, Voice/Data modems and much more. **p/n 1163** Comes standard with each Headset.

Chameleon Headset™ Supervisor "Y" Cord

Designed for use with the Chameleon Headset™ coiled cord to connect two headsets to one line for Supervisor coaching, monitoring and participation with microphone toggle switch. **p/n 1183**

Sold separately
