

# DELUXE KITS

All kits on this page require soldering.

## Telephone Kit

Model PT-323K

Clear, See-Through Case  
with Training Course

The Elenco PT-323K is a push button electronic telephone. It is equipped with the following features: Pulse/tone dialing, automatic redial, a ringer turn off switch, 4 neon bulbs for visual indication of telephone ringing, and a clear see-through case to show the total inner workings of the phone. A detailed, easy-to-follow 36 page manual included. Sectionalized construction and testing makes construction easy. Wall mounting cradle included.

Also available in non-soldering version: Model AK-870 with training course.

## Radio Controlled Race Car

Model RCC-7K

with Training Course

The purpose of this project is to expand your understanding of basic transmitters, receivers and electronic switching theories. Your Turbo King Car will be built from the ground up. You'll learn all about gears, motors, printed circuit boards, and integrated circuits from our detailed assembly and training manual. You will construct each section, explore the circuitry and troubleshoot it.

### Features

- 7 Remote Functions.
- Single Channel Operation.
- Flashing Top Light.
- Remote Control Included.

Requires one (1) 9V (part # 590009) and four (4) "AA" batteries (part # 590001).

## Two IC AM Radio Kit

Model AM-780K

New Design - Easy-to-Build complete radio on a single PC board. Unique design allows you to place parts over its corresponding symbol on the PC board. Teaches the basic theory of AM radio operation. Detailed instructions and illustrations make it an easy and educationally sound project.

Requires one (1) 9V battery (part # 590009).
