Multi-Purpose Shipping Case

Patented Guardsman™ Design & Construction

Platt's Guardsman cases are unique and easily recognizable. Construction features HMW polyethylene thermoplastic sheets bent to size to form strong but lightweight shipping cases ideal for computer, video, audio, medical, electronic instrumentation and industrial equipment. All cases use our UNIQUE CONTINUOUS FRAME CONSTRUCTION for maximum strength and durability. Cases include full-length piano hinge, recessed spring-loaded handle and latches.

Foam interiors can be made to your individual requirements using polyurethane ether or ester foam, polyethylene foam, anti-static, conductive or static dissipative foam.

Options include different colors, stacking studs, combination lock, fixed or removable casters, wheels and telescoping handle, key lock, padlockable latches and conductive polyethylene for protection against ESD discharge damage.

All orders (EVEN ONE CASE) are quoted by Platt depending on size, foam interiors, other options and quantity. Call your local distributor.

Color / Material Options

Platt's Guardsman cases are available in black, safety yellow, safety orange, gray, blue, green, and white. Other special colors are available with minimum order requirements. Also available as a Jetalum™ all aluminum construction. Contact factory for availability.

Telescoping Handle ATA

Platt's Guardsman cases are available with built-in wheels and telescoping handle. Not only are the Guardsman cases able to take the rigors of shipping, but now, when you get the case, it is easy to move. Convenient for display cases or product cases.
