

SNAP CIRCUITS EDUCATIONAL SERIES

Ideal for
Middle Schools,
High Schools,
and Vocational
Institutions.

Elenco™ Electronics is proud to present three training programs to introduce your students to basic electricity and electronics. Through the development of Snap Circuits, Elenco™ has revolutionized the approach educators use in the teaching of basic electronics.

Through the safe use of modules that easily snap together, students can construct hundreds of projects from simple light circuits to radios, burglar alarms, and much more. The teachers guide and student guide booklets make the administration of the program not only educational, but easy and fun.

Student guide included with all programs.

Teachers guide sold separately.

Training Program

Model SC-500R

The Model SC-500R contains over 75 modular snap-together parts that will allow students to build over 500 experiments in electricity and electronics. The full-color project book will make it a snap to construct projects related to transformer, relays, 7-segment LED displays, transistors and diodes. Also learn about series/parallel circuits, AM/FM radios, resistance and capacitance.

Requires four (4) "AA" batteries (part # 590001).

Topics Covered:

- Resistors
- Capacitors
- Transistors
- Integrated Circuits
- Diodes
- FM Radio
- Series Circuits
- Parallel Circuits
- Motors
- Relays
- Transformers
- Digital Recording
- 7-segment Displays
- SCR's
- Analog Meters

Three project books, and student guide included.

Teacher guide sold separately.
(Part #753290)

NEW

Custom Storage Case

Each SC-500R comes with a lightweight, durable case with custom foam inserts to store all Snap Circuit parts. Easy to identify missing components.
