

C-MGM/MGM

Kramer's Micro VGA cables provide high performance and flexibility. These thin cables constructed of 5 micro coax (32 AWG) for the RGBHV signals and additional wires passing all ID bits, pre-terminated with molded 15-pin HD connectors (Male to Male), are flexible to make installations easy and neat.

- Outer diameter of 5.4mm (0.212 inch).
- All 15 pins are passed through the cable.
- The HD-15 connectors are specially designed with small profile to fit any high density installation.
- Ideal for video presentations, home theater and any installations in tight spaces.
- Use these cables with our table solutions for your comfort and efficiency.
