Radio Controlled Car Kit
with Training Course   Model AK-870

The purpose of this project is to expand your understanding of basic transmitters, receivers and electronic switching theories. Your Turbo King Car comes with the PC board already built. There is no soldering required! You'll learn all about gears, motors, printed circuit boards, and integrated circuits from our detailed assembly and training manual. You will construct each section, explore the circuitry, and troubleshoot it.

Now available in soldering version: Model RCC-7K with training course

Features

- 7 remote functions.
- Flashing top light.
- Single channel operation.
- Remote control included.
- Full color assembly instructions.

Requires one (1) 9V (part # 590009) and four (4) "AA" batteries (part # 590001).

35mm Camera Kit w/ Flash
Model AK-560
with Training Course

Now you can learn all about photography with our new Camera Kit. Our training manual will teach you everything you need to know about light, film, speed, exposure, development, and much more. And best of all, you will have a working camera "you built" when you are finished.
Requires two (2) "AA" batteries (part # 590001).

Cola Clock Kit
Model FUN-285

NEW

No Batteries Required!

Cola not only quenches your thirst, but can power a clock too! Build this kit and amaze your family and friends with this cola-powered clock.

Learn how batteries work when you use cola to make a chemical reaction that powers a clock. Completely safe and doesn't require batteries! Parts are easily identified and assembled with full color manual.
