947 MINI GRIPPER

HAS {2} .025" SQUARE PIN SOCKETS

This bendable, clamp style, rotating gripper can also be used with leads 4262 and 4262-1, shown above. It is well suited for use with surface mount devices, and has extremely thin wires, can bend 35 degrees and still remain fully operable. It has two .025" square pins to plug into leads and is rated 42V.

SOLD 1 each per package. Specify Red or Black.
