

Graphite Group

Attractive! Elegant! Smart! These are just a few ways to describe the Graphite Furniture Group from Raxxess. Centered around the GFRF-WS Workstation, this grouping stands out as being "built for today's home recordist." The workstation itself is built on a base of 18 gauge, cold rolled steel beautifully finished in a silver powder coat. The top is a full 1.125 inches in thickness. The fully articulating keyboard shelf is a solid three-quarters inch, as are the optional monitor shelves. All surfaces are attractively contoured and then laminated with a vinyl finished graphite check. All edges are rounded for an elegant completion. The optional monitor shelves (three can fit) can be placed left, right or center and are five inches above the desk surface for easy viewing. Integral cable management and floor levelers are standard on the GRF-WS. Also available as an option is a twelve space, all steel rack (GSKR), finished in a matching silver powder coat. Standard heavy duty casters allow the rack to slide conveniently under the desk.

GRFSS Speaker Stands are the perfect complement to the GRF-WS. The tops and bottoms attractively and durably finished in vinyl clad medium density fiberboard and measure fourteen inches square for stability and to allow a spacious fit for most near-field monitors. The center post measures five inches square and is again wrapped in vinyl simulating the finest brushed and anodized aluminum. The GRFSS stands are 42 inches tall and come standard with rubber floor bumpers.

Rounding out the Graphite Furniture Group are the GRF Series knock down racks. A perfect cosmetic match to the workstation and speaker stands with both a three-quarter inch graphite check top and brushed aluminum simulated sides. These racks are easily assembled with the heavy duty hardware included and are equipped with 11 gauge steel rack rail. Furniture grade casters are standard. Framed silver laminated/plexi front doors are optional. Available in 12 and 20 spaces.

GRF graphite series

| Model | Height w/casters | Height w/out casters | Top Depth | Racking Height | Racking Depth |
|--------|------------------|----------------------|-----------|-----------------|---------------|
| GRF-12 | 25.625" | 22.6875" | 18" | 24.5" 12 spaces | 16" @ 6 RU |
| GRF-20 | 39.625" | 36.6875" | 18" | 24.5" 20 spaces | 16" @ 6 RU |
