

ARISTOS OPTIC FILTER KITS

Aristos Optic Filter Functions As A Mirror When TV Image Is Turned Off

The Aristos Optic Filter Kit is a special filter that enhances the appearance of the television picture, making colors appear more vivid and fine details seem crisper. When the display is switched off, the optical filter turns any flat-panel TV into a beautiful framed mirror.

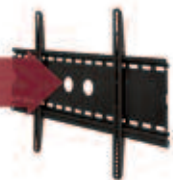

Sanus Decorative Frames
Choose from four different finishes to match your decor.

Optic Filter Kit (optional)
Aristos Optic Filter Kit transforms TV into a mirror

Flat-Panel TV
Frames fit 32", 42" and 50" TVs.

Sanus VisionMount™
Low-profile mounts allow the frame to be virtually flush to the wall.
