Expedition Express - Complete Portable PA System

Everything You Need, Even Good Sound.

Expedition Express is the total solution to professional sound, made portable. It gives you everything you need to make a professional presentation anywhere you can roll it.

Expedition Express is a great solution for performers on the move. Bands, mobile DJ's, schools, houses of worship, corporate A/V and institutional applications- anywhere portable, high quality sound is required.

Unlike most portable PA systems, the Expedition Express is designed to sound great. Not just for public speaking either-but for live and recorded music, too.

The system is comprised of a pair of rugged, acoustically balanced two-way loudspeakers, a 4-channel mixer with DSP, a powerful 250 Watt amplifier and all the accessories you need. What's more, the system interlocks, and packs up into a single rolling unit so it's easy to transport.

We've thought of everything: Expedition Express includes a professional dynamic microphone, mic clip, mic cable, extension speaker cable and protective ballistic nylon cases.

Compact and Powerful

The Expedition Express combines a powered speaker with built-in amplification and controls, and a light-weight second speaker or "slave". When set up for performance, the two cabinets are connected by a single cable. When they are packed of for the road, the lightweight passive speaker cabinet locks into the top of the amplified speaker cabinet with a unique auto-locate mechanism. Each loudspeaker is housed in
