

PlateMate™

Plates Assembled with Gold Connectors

PlateMate™ Standard plates are available in white or bone. PlateMate™ Decora® versions are available in white, bone and almond.

A Modular System To Aid Inventory Control and Installation Flexibility

Russound's PlateMate™ system is designed to minimize your accessories inventory and maximize your flexibility! PlateMate™ is a modular system, with separate plates and connectors that you actually build to your exact requirements.

Conveniently prepackaged in affordable quantities, our ingenious system includes wallplates in both standard and Decora® plates that accommodate one, two, three, four, six or eight audio or video connectors.

PlateMate™ also accommodates one, two or three RJ-11 or RJ-45 phone jacks as well as a special Satellite TV configuration with two F connectors and one RJ-11, in either Decora® or standard. All PlateMate™ connectors come standard with premium gold plating.

PlateMate™ reduces inventory investment along with worries about not having the components needed at the job site.
