2100

Using 3/4" Composite Plywood and Baltic Birch and choice components, the new Professional Series cabinets were designed from the ground up to be the premier bass cabinets of the Hartke line.

These rock-solid cabinets feature recessed flush mounted spring handles and removable wheels for moving (and tilting back) and a sturdy input cup with 1/4 inch and Speakon (R) connectors

The 2100 Professional Series High Powered 2 x 10 and horn full range system features angled speakers to provide highs and clarity to the bass player.

- 2 Hartke Aluminum Cone 10" XL Drivers
- 1" Compression Driver on a 60 x 60 degree Medium Throw Horn
- 18db/oct slope @ 5000hz Crossover with overload protection.
- 4 removable casters (remove the rear two for additional playing angle)
- 2 Airflow Curved ports.
- 1/4" and Speakon(R) Connectors
- Impedance: 4 ohms
- Power Handling: 200 Watts
- Frequency Response: 34 hz-16khz
- Dimensions: 23.4" (h) x 17.4" (w) x 18" (d)
- Weight: 60.5 lbs
