Two Cat 5e and One RG 6 Quad shield coax with an overall gray PVC jacket

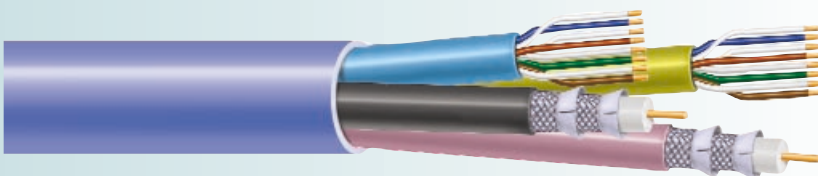

RMMJ5AE1575F

Two Cat 5e, Two 62.5 FDDI simplex fibers and Two RG 6 Quad shield coaxes with an overall yellow PVC jacket

RMM5AE1575F

Two Cat 5e, Two 62.5 FDDI simplex fibers and Two RG 6 Quad shield coaxes with an overall speedwrap

RMMJ5AE1575

Two Cat 5e and Two RG 6 Quad shield coaxes with an overall blue PVC jacket

REMEE HOME AUTOMATION (Multimedia)

The purpose for these designs are to reduce the need for installing additional cables in the walls as future technologies become available.

Our cable constructions are designed to meet or exceed all TIA 570 recommendations for residential telecommunications infrastructure cabling.

Since 1994, Remeo takes pride in the development, design, and manufacture of these constructions.
