

Dolphin® 7600 Mobile Computer

The 7600 Advantage:

The Dolphin 7600 is Hand Held Products' most compact mobile computer, offering a range of features and functionality superior to other devices in its class. Combining all of the data collection and communication attributes of an industrial-grade mobile computer, in a more compact and cost-effective design, the 7600 finally offers you an opportunity to deploy a powerful and reliable productivity tool without hurting your bottom line.

Designed for Mobile Data Collection

- Narrow and lightweight design fits comfortably in a user's left or right hand
- Integrated finger saddle ensures secure grip and allows the thumb to rest naturally on the scan key
- Strategic key placement enables easy, one-handed use of the keypad and scan key
- Downward angled image scanner for less wrist movement while scanning

Extended Battery Life for Increased Up-time and Reduced Battery Replacement Costs

- 8+ hours of use on a standard battery
- Increases worker productivity and minimizes the risk of data loss
- Fewer charge cycles increases the lifespan of your batteries, reducing Total Cost of Ownership (TCO)

Built Right for Light-Industrial Applications

- IP54 rated for protection from dust and liquids
- Withstands repeated 4' drops to concrete.
- Magnesium alloy frame protects internal components and adds structural rigidity

Performance and Versatility of 2D Imaging Comes Standard

- Omni-directional reading of linear and 2D bar codes
- Capability to capture digital images
