

18-Line IP/Analog Radio Dispatch Console model: **C-6200**

The C-6200 is a unique and flexible platform in the dispatch industry that can function as either an IP-based or an analog console, giving you the flexibility to deploy it in numerous settings. Perfect for any small to midsize operation, the C-6200 offers world class dispatch capabilities and can even be configured to bridge analog and IP assets within a single unit. It's also the perfect hardware console back-up to the Nexus IP Dispatch Position. The C-6200 requires no CEB or additional CPU equipment for operation. All the processing and control capabilities are completely self-contained within the unit. Requires a gooseneck or desktop microphone or dispatch headset for operation—all sold separately.
