

RETRO-VU

Retro-Vu is a rigid rear-view diffusion screen that features a specialized optical coating to provide high-contrast, excellent color reproduction, and exceptional resolution. Vutec offers custom coatings and a variety of gains to meet all applications.

Features

- Choice of optical coating from 1.0 to 2.5 gain, with a grey or charcoal tint
- Available in glass or acrylic substrates
- Custom sizes available
- Optional pre-assembled SF Frame

DNP RETRO-LENS

DNP Retro-Lens is a one-piece cast acrylic fresnel/lenticular rear screen.

Features

- High gain rated up to 5.0
- Excellent image contrast and resolution
- Wide viewing area

DNP RETRO-LENS WITH BLACKSTRIPE

For high ambient light situations, Vutec offers a two-piece cast acrylic screen that has black vertical lines between the lenses on the front (audience) surface. This special screen has all the optical characteristics of the Retro-Lens with enhanced contrast.
