

STINGER TACTICAL HEADSETS

Helmet Worn Stinger

Head Worn Stinger

Rugged and lightweight the Stinger 750 is ideal for tactical and force protection situations. The Stinger headset has been the design standard for this market for years. This series has a reputation for reliability, comfort and versatility in today's market. The addition of a 2.5 mm jack in the speaker housing allows for a receive mute option and provides for increased receive audio in a high noise environment.

Stinger headsets come with a one-year warranty. Radio interface cables are available for most radios and are sold separately.

The Helmet-Worn Stinger

- Highly sensitive waterproof* electret microphone
- Full-range waterproof* speaker
- Helmet clip speaker mount allow optimal positioning for ample audio reproduction
- Hook and loops chinstrap fastener allows user to place microphone in the ideal position
