

## Gasoline-powered, Diesel / Oil heated

**MVC:** Entry-level, compact, hot water pressure washer for on-site cleaning

The MVC Commando is an ideal compact, hot-water pressure washer for on-site cleaning with its unique design and portability. Protected by a welded, one-piece, 1/4" square steel cage, the MVC has a Schedule 80 heating coil with 5-year warranty, a 10-gauge steel chassis with epoxy powder coat finish, and easy-to-reach control panel with tachometer and hour meter for maintenance monitoring. The entire unit rides on four 13" tubed pneumatic tires ideally spaced for balancing and stability.

- **Pump:** Landa Pump, direct-drive, heavy duty
- **Gasoline Engine:** 9 - 13 HP Honda

Features	Standard	Optional	N/A
Variable Pressure Wand	●		
Vibration Isolated Engine	●		
Adjustable Thermostat	●		
Stainless Steel Coil Wrap		○	
Mag Wheels			○
Float Tank with Metering Valve			○

Part No.	GPM	PSI	Pump RPM	HP	Engine	Start
<b>MVC3-30324</b>	3.0	3000	3400	9	Honda	Recoil
<b>MVC4-30324</b>	3.5	3000	3400	11	Honda	Recoil
<b>MVC4-30324E</b>	3.5	3000	3400	11	Honda	Electric
<b>MVC4-35324E</b>	3.5	3500	3400	13	Honda	Electric
<b>MVC4-30324E/S*</b>	3.5	3000	3400	13	Honda	Electric

\*Designed for high altitude applications

## Electric-powered, Diesel / Oil heated

**SUV:** Super-compact, entry-level hot water pressure washer, 12VDC

**NO BATTERY NEEDED** There's never been an entry-level, gasoline-powered, hot water pressure washer so compact and yet so reliable as Landa's new SUV.

The SUV is made possible by the technologically advanced Robin-Subaru engine being matched with a Landa proprietary Super-Duty Regulator (SDR) to create an extremely versatile medium-duty, hot water pressure washer that operates completely without a battery or magneto system.

The Subaru engine, with its revolutionary new internal 200W alternator, linked to Landa's extra-large SDR unit, is capable of supplying enough power for all of the SUV's electrical functions, including its high-efficiency burner assembly. This eliminates the need for a battery and for belts and pulleys used in maintenance-intensive magneto systems.

The SUV stands only 39" high with a ship weight of only 380 lbs. (6 HP model) and 385 lbs. (7 HP model)

- **Pump:** Landa Pump, direct-drive, heavy duty
- **Gasoline Engines:** 6-7 HP Subaru
