

Landa Industrial Sandblasters

For the extra-tough cleaning jobs, wet-sandblasting is the dust-free solution.

Landa's sandblasters attach to a hot- or cold-water pressure washer and, using a venturi, mixes sand or other abrasive media with the high-pressure spray to create enough cleaning power to strip paint off concrete and barnacles from a ship's hull.

The sandblasting nozzle is made of tungsten carbide for long life. There are two models—a top-of-the-line steel pot (photo at right) with tight-fitting lid or with a probe only.

Other features include:

- Quick-connect coupler for ease in attaching sand probe or pot;
- Valve for metering the flow of the media;
- Tubed, pneumatic tires for easy maneuvering.

4-011211

- **Rating:** Super-duty
- **Recommended Usage:** Heavy
- **Attaches to:** Any hot- or cold-water pressure washer with minimum volume of 4 GPM

Part No.	Description
4-011201	Sandblaster w/ Pot (Carbide)
4-011211	Sandblaster w/ Probe (Carbide)

4-011201

Landa Sand Nozzle

Tungsten Carbide provides maximum durability for sand blasting application.

- Carbide insert
- Light weight
- Easily changed

Part No.	Description
4-2002	Carbide Sand Nozzle

Pit Cleaner

Cleaning sludge from the bottom of a collection pit or tank is neither easy nor fun. But the Pit Cleaner makes it bearable.

An extended wand is attached to a cold- or hot-water pressure washer with a minimum of 1000 PSI. The pressure is channeled so that it creates a vacuum, capable of suctioning mud and sludge from the bottom of a pit, tank or even a pond.

The sludge is deposited into a porous collection bag, mounted on a hand truck, where the water drains out and the sludge is allowed to dry for proper disposal.

4-41120

30-580

30-575

Part No.	Description
30-575	Pit Cleaner Assembly (as shown w/hose)
30-580	Sludge Cart (sold separately)
4-41120	Sludge Pump Head w/ 05 nozzle installed
4-02190003	Hose, 1-1/2" Spirallite, per foot
