KEITH® FLOOR SLAT MODELS

MODEL	FEATURES & SPECIFICATIONS	CURRENT USES
2145 	LEAKPROOF SERIES Designed for high moisture loads. Features a 12" ponding capacity.	Waste Industry
2295 	IMPACT® SERIES - 2 Ridge 3.5" Absorbs more impact during top loading, reducing bending of the slat.	Waste Industry, Pallets
2299 	IMPACT® SERIES - 3 Ridge 3.5" Continuous wear strip creates a long-lasting slat, ideal for compactor loading applications.	Waste Industry, Compactor, Demolition, Various
2303 	IMPACT® SERIES - 2 Ridge 6" Ridges absorb top-load impact. Wider design spans two 1" x 1" supports.	Waste Industry
2297 	IMPACT® SERIES - 2 Ridge 3.5" Higher ridges provide more impact absorption for heavier duty uses.	Waste Industry, Demolition
2301 	IMPACT® SERIES - 3 Ridge 3.5" The extra wear ridge provides even, optimal impact absorption. Compactor compatible.	Waste Industry, Compactor, Demolition
2307 	IMPACT® SERIES - 2 Ridge 6" Similar to the 2303 slat, but is slightly thicker with higher ridges for durability.	Waste Industry, Demolition
2185 	STANDARD SERIES - 2 Ridge 3.5" Useful in a variety of industries. Ridges provide added strength.	Pallets, Forest Products, Agriculture
2190 	STANDARD SERIES - 6 Ridge 3.5" A universal slat used for a variety of applications. Better than smooth flooring when using forklifts.	Pallets, Forest Products, Agriculture
2203 	STANDARD SERIES - Smooth 3.5" A versatile slat used in a number of industries, including agriculture and solid waste.	Solid Waste, Forest Products, Paper Rolls, Agriculture
2199 	STANDARD SERIES - Smooth 3.5" A versatile slat used in a variety of industries. Provides longer life when hauling abrasive materials.	Waste Industry, Forest Products, Agriculture
2195 	PRESSURE SEAL SERIES - 4 Ridge 3.5" Designed to provide a positive seal and stop fine material from sifting through the floor slats.	Fine Bulk Commodities
