

Recycling Products

Duo-recycler®

The Duo-Recycler is an efficient, visual reminder for office recycling programs that replaces conventional wastebaskets. The container holds two compartments for easy source separation of trash, plastic, and recyclable office paper. The Duo-Recycler footprint is approximately that of a standard waste basket.

Duo-recycler® Benefits

- 100% recyclable molded polyethylene & ABS
- Reduces contamination of recyclables at source
- Compact design

Curbsider®

Designed for residential/municipal curbside recycling programs, the Curbsider is rugged enough for all environments. Excellent for programs that focus on glass, paper, and plastic. Available in up to 100% recycled material to meet a wide range of recycling program specifications
