## Product Description

The FastHome™ AC Power Module provides central 120VAC power for modules in the FastHome™ surface-mount enclosure. It features a UL-listed NEMA 5-15R duplex receptacle and a rear 1/2" knock-out hole with push-in NM-B cable connector. This module features 18-gauge cold rolled steel construction for strength and excellent RFI shielding. It also offers a white textured powder-coated corrosion-resistant finish. Installation of the module in a FastHome™ enclosure is easy, as nylon pins snap the unit into place without tools.
