

High-performance speaker supports with the beauty of real hardwood construction

The softly contoured, hand-rubbed, black lacquer base is constructed of acoustically superior MDF and comes with both premium adjustable carpet spikes and polyester feet. The extra-thick pillar is constructed of solid hardwood for the perfect combination of beauty and quality. A patented wire management channel safely hides speaker cables behind the pillar. And the strong but inconspicuous MDF top plate comes with brass speaker studs and neoprene isolation pads.

NF24b | PFV36-B1

« Center channel stand tilts speaker to focus sound using adjustable studs or neoprene speaker pads

« The extra-thick pillar features a modern design that is both elegant and acoustically superior

« Adjustable carpet spikes or screw-in polyester feet add stability on any surface

« Patented wire management path easily organizes and conceals even the largest cables

Model NF24c shown with Natural AV Foundations™ models NFCD-IIc, NFCTC, NF213c and NFEDTc and VisionMount™ model VMAA18
