

Change the channel... and the position of your flat-panel mount. Our fully automated full-motion mount offers tilt, swivel and extend motions up to 12" from the wall at the touch of a button. Its easily programmable settings allow you to pre-set your four favorite TV locations, so it's simple to find and keep the perfect viewing angles for any room. All mounting hardware is concealed and protected by a decorative cover, and an exterior control panel allows for easy maintenance without disturbing the mount. Add to that a universal remote featuring TV, DVD and mount control functions, and it makes a great addition to any home theater.

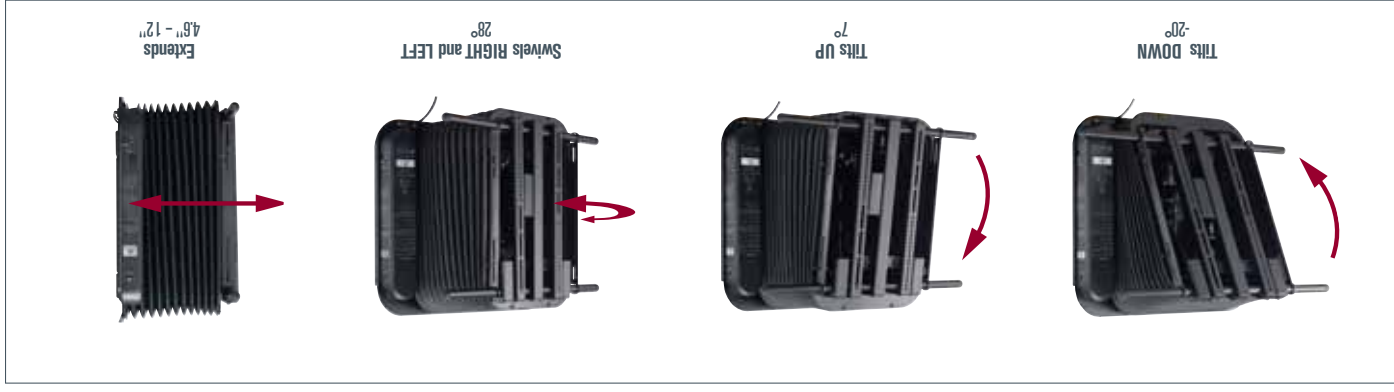

« Full-motion mount featuring automated tilt, swivel and extension motions 

« Includes programmable universal remote for controlling mount, TV and DVD 

« Flexible decorative cover creates a clean and finished look while protecting inner components 

« Four pre-programmable settings allow common viewing angles to be saved and set at the touch of a button
