

Modern meets practical with Vertical AV Foundations™. Sanus Vertical AV Foundations™ combine the storage capacity of a cabinet with the discreet look of a low-profile wall mount, creating a versatile, stylish piece that can literally fade into the woodwork. These wall-mounted AV stands feature adjustable tempered-glass shelves and generous wire management channels, so they're perfect for mounting directly under a TV. And some models offer an interchangeable glass and wood back panel in case you change your decor. It's the most practical piece of art you'll ever own.

VF5023-B1

« Strong tempered-glass shelves can be vertically adjusted to accommodate any AV component arrangement »

« VF2012 and VF2022 feature post installation height adjustment to mount directly below television. »

« VF5022 and VF5023 include interchangeable black glass and wood back panels to match any home décor »

« Concealed wire management discreetly routes cables to wall plates behind interchangeable panels »
