

FLINTFAST™ #14 HEAVY DUTY FASTENERS

Product Information

Description: FlintFast Fasteners from CertainTeed are engineered to provide top quality performance with commercial roofing systems and designed to increase strength and improve application efficiency. Heavy Duty Fasteners are used in roofing applications for the attachment of roofing insulation (FlintBoard™) and base sheets.

Uses: For tougher jobs, low profile head provides positive driving, while sharp drill point and exclusive tapered wedge entry allow fast, strong application. Available in lengths from 1-1/2" to 12".

Technical Data

13 single lead threads per inch
 Typical pullout in 22 ga. steel deck: 550 lbs.
 Typical pullout in structural concrete 1" embedment: 740 lbs.
 Standard #3 Phillips Truss Head
 Back-out resistance
 EPX™ epoxy coating exceeds FM4470 corrosion standards
 Approvals: Factory Mutual, Miami-Dade

Product Application

Eye protection must be worn. Install using 2500 RPM variable speed drill. Do not over or under drive.
 Steel decks: penetrate 3/4" minimum
 Wood decks: into or through deck 1" minimum
 Concrete decks: penetrate 1" minimum

Packaging

Screw Length	Pieces per Pail	Pails per Pallet	Approx. Weight per Pallet (lbs.)
1-1/2"	1000	80	1,032
2"	1000	80	1,240
2-1/2"	1000	80	1,552
3"	1000	80	1,896
3-1/2"	1000	80	2,256
4"	1000	80	2,392
4-1/2"	1000	80	2,688
5"	1000	80	2,984
6, 7, 8, 9"	500	80	1,760; 2,308; 2,372; 2,628;
10, 11, 12"	500	80	3,040; 3,308; 3,472

Driver included in each pail
