

Chateau® with ChoiceFlo® Filtration

Chateau single-handle kitchen faucet with ChoiceFlo Filtration and matching-finish Protégé® side spray / F7430

Moen makes a popular style even better by adding the innovative ChoiceFlo water filtration system to Chateau. To ensure purity, built-in dual waterways separate filtered and tap water. It's easy to get the water you want when you want it. Plus, ChoiceFlo filters last three times longer than standard add-on water filter systems. There's even a convenient indicator to alert you when it's time to switch the dry change filter.

Chrome

ChoiceFlo®

Two choices. One spout.

- A separate waterway delivers filtered water through a hidden spout on the faucet.
- A stylish lever easily controls the flow of filtered water.

ChoiceFlo 9600 Replacement Filter / 9601

- Long-life filter needs to be replaced only twice a year.

Convenient filter handle

- Filtered water with just one turn.
- Filter life indicator light on filtration handle turns on when it's time for a change.
