

INVESTMENT PROTECTION

You invested in Allison Automatics because you wanted your vehicles to be more productive and profitable. When it comes to their care and maintenance, you need to know Allison has you covered with a full package of quality products and services.

From filters designed and tested to provide the best combination of filtration and duration to TranSynd™ heavy-duty synthetic transmission fluid that dramatically extends drain intervals. From a comprehensive Transmission Fluid Analysis Program utilizing algorithms developed by Allison engineers that helps get the maximum potential from your fluid to our nationwide network of authorized Allison distributors and dealers.

So, you see, Allison not only helps protect your investment, we help improve on its return.
