TEMPERED GLASS MIRRORS**

B-2908 SERIES

B-1658 SERIES

Tempered glass mirrors are engineered for heavy-traffic, vandal-prone restrooms in K-12 school buildings, stadiums, outdoor recreation centers and low-supervision facilities such as parks and highway rest stops.

Tempered glass mirrors resist breakage and provide a measure of safety from broken glass, but differ in color and reflective quality from standard glass mirrors. Bobrick uses the highest quality tempered glass mirrors. Modest distortion or heat-generated markings are normal in the tempered glass mirror manufacturing process. Therefore, Bobrick will not accept returns of tempered glass mirrors with random distortion or markings.
