

# **EB Series Standalone DVR/NVRs**

## EB1704HB WiFi-4

Entry-level embedded hybrid DVR solution; best for homes and small retail (ex. pawn, jewelry, etc.) stores

## EB1704HB WiFi-4 CCD

## **EB1704HB WiFi-4 CMOS**

## Overview

- Entry-level embedded hybrid DVR solution; best for homes, individual apartments and condominiums
- 4 channels Video and 4 channels Audio input with 120 fps recording rate
- Bundled 4 wireless IP cameras (either CCD or CMOS version) ensures that there is no need for expensive coaxial cabling
- No IP configurations necessary with instant video feed by simply powering on!
- Unique hacker-proof encryption technology makes for an extremely secure system
- Supports Central Management System, allowing for remote management and control of up to 1,000 DVRs
- View live video on compatible mobile phones
- Intelligent Motion and Sensor Detection allows for recording only when activity or relay is detected

EB1704HB WiFi-4 Specif	ications	
Operating System	Embedded Linux and RTOS	
Hybrid	Yes	
IP Camera Support	Bundled with 4 wireless IP cameras (CMOS or CCD)	
Video Format	NTSC	
Software Compression	MPEG4	
Video Output	CCTV, TV or LCD monitor	
Video Input	4 channels (BNC connectors)	
Audio Input	4 channels	
Display Rate	120 fps	
D1 Recording Frame Rate	60 fps	
CIF Recording Frame Rate	120 fps	
Recording Resolution	up to 720x480	
User Access	2 users; 1 complete administrative privileges & 1 limited privileges	
Sensor/Relay	Built in 4 sensors and 1 relays	
Removable HDD Bay	Yes	
Number of HDD supported	1	
Dimensions (WxHxD)	330 x 57 x 393 mm or approximately 13 x 2 x 15 inches	
User Interface:		
Туре	User Interface	
Display Formats	Full screen or Quad split-screen	
Pan-Tilt-Zoom Control	No	
Multiple Languages	Yes	
Video Quality Settings		
	Yes - Hue, Brightness, Saturation and Contrast	
External Device:	Yes - Hue, Brightness, Saturation and Contrast	
External Device:  Spot Monitor Support	Yes - Hue, Brightness, Saturation and Contrast Yes	
Spot Monitor Support		
Spot Monitor Support  Recording Features:	Yes	
Spot Monitor Support  Recording Features:  Recording Modes	Yes  Manual, Motion Detection, Schedule, Sensor trigger, & Alarm trigger	
Spot Monitor Support  Recording Features:  Recording Modes  HDD Size Estimation	Yes  Manual, Motion Detection, Schedule, Sensor trigger, & Alarm trigger  Yes - Percent of HDD remaining	
Spot Monitor Support  Recording Features:  Recording Modes  HDD Size Estimation  Recycle Recording	Yes  Manual, Motion Detection, Schedule, Sensor trigger, & Alarm trigger  Yes - Percent of HDD remaining  Yes	
Spot Monitor Support  Recording Features:  Recording Modes  HDD Size Estimation  Recycle Recording  Video Loss Detection  Event Log  Playback Features:	Yes  Manual, Motion Detection, Schedule, Sensor trigger, & Alarm trigger  Yes - Percent of HDD remaining  Yes  Yes	
Spot Monitor Support  Recording Features:  Recording Modes  HDD Size Estimation  Recycle Recording  Video Loss Detection  Event Log	Yes  Manual, Motion Detection, Schedule, Sensor trigger, & Alarm trigger  Yes - Percent of HDD remaining  Yes  Yes	
Spot Monitor Support  Recording Features:  Recording Modes  HDD Size Estimation  Recycle Recording  Video Loss Detection  Event Log  Playback Features:	Yes  Manual, Motion Detection, Schedule, Sensor trigger, & Alarm trigger  Yes - Percent of HDD remaining  Yes  Yes  Yes	
Spot Monitor Support  Recording Features:  Recording Modes  HDD Size Estimation  Recycle Recording  Video Loss Detection  Event Log  Playback Features:  Watermark Verification	Yes  Manual, Motion Detection, Schedule, Sensor trigger, & Alarm trigger  Yes - Percent of HDD remaining  Yes  Yes  Yes  Yes	
Spot Monitor Support  Recording Features:  Recording Modes  HDD Size Estimation  Recycle Recording  Video Loss Detection  Event Log  Playback Features:  Watermark Verification  Playback Software on PC	Yes  Manual, Motion Detection, Schedule, Sensor trigger, & Alarm trigger  Yes - Percent of HDD remaining  Yes  Yes  Yes  Yes  Yes	

Search Features:			
Visual Search	No		
Search Criteria's	Search by date, time, event and event logs		
Export Functions	Export single frames to BMP files or export video clips to AVI files		
Back-up:			
Schedule Back-up	Yes with installed Web tools software		
Over Heat Detection	No		
Backup Functions	USB device (Pen Drive)		
Alarms/Sensors/Relays:			
Alarm Trigger Notifications	Relay - System will turn on lights, lock gates, sound an alarm, etc.		
	Record - System will start capturing video footage from different angles		
	on multiple cameras		
	CMS3000 - Event information will be automatically generated in the		
	CMS3000 for follow-up		
Video Intelligence	Motion Detection		
I/O Box Support	Built in 4 sensors and 1 relays		
Remote Accessibility:			
Remote Accessibility:	WebViewer – 1/4 split screen views with PTZ control for hybrid cameras
