NEC MultiSync® LCD195VX+/ Matrox Analog DualHead2Go Bundle

Dual 19" desktop LCDs / Analog graphics expansion module

Increase your productivity with the 19" NEC MultiSync LCD195VX+/Matrox DualHead2Go bundle (LCD195VX+BK-DA), an easy-to-implement solution that helps you get more done in less time. Combining two feature-rich LCD monitors and an analog graphics expansion module, this bundle delivers all of the benefits of a dual-display configuration in one simple solution.

matrox

matrox DualHead2Go

Matrox DualHead2Go, the first in the Matrox series of GXMs (Graphics eXpansion Modules) is a palm-sized box which sits outside a notebook or desktop computer and offers dual display support to a system via external connectivity. Unlike with a new graphics card, this patent pending technology delivers multi-display capability without requiring users to open their computer and insert parts into it.

Bundle Features & Benefits

External graphics expansion module connectivity makes for an easy dual-display setup without the need for installing components into your computer

Dual-display configuration expands the desktop for increased productivity

Height-adjustable stand adds flexibility and comfort to your viewing preferences

Ambix dual-input technology allows for digital/analog compatibility with upgraded video cards and software as well as connection to two systems

Enhanced cable management helps prevent unattractive, space-consuming wire clutters

Rapid Response technology delivers virtually uninterrupted, undistorted viewing of high-speed, full-motion video
