Avocent®

AutoView 1400/1500/2000
KVM Switching Solutions

AUTOVIEW SWITCHING BENEFITS

- **Integrated Cabling.** AutoView integrated access cables offer PS/2 or USB keyboard, video and mouse connectivity in one, slim CAT 5 cable, which reduces cable bulk, saves time and reduces cost.

- **Advanced Cable Management.** Smart chip interface automatically assigns and retains unique server names for each attached server. Smart cabling simplifies installation efforts and eases re-configurations tasks.

- **Connectivity.** AutoView switches deliver simple and convenient connectivity to all major server platforms and VT100 serial-based devices.

- **On-Screen Display.** Easily configure your system; name and select your servers from the convenient on-screen display (OSD).

- **AutoView 8-port KVM Switches.** The AutoView 1400 switch provides a single user with access to eight PCs and network devices. The AutoView 1500 switch provides two simultaneous users with access to eight PCs and network devices.

- **AutoView 16-port KVM Switch.** The AutoView 2000 16-port KVM switch provides two simultaneous users with access to 16 PCs and network devices.

- **BIOS-level Access.** Gives you critical connection to the attached servers regardless of the health or type of the operating system.

- **Design.** Space-saving 1U rack mount design.

- **Flash-upgrades.** Flash-upgrade firmware for fast and easy updates for the appliances and the server interface modules.

Simple KVM switching and smart cabling in one KVM solution.

The AutoView® KVM switching system provides you with the added benefit of advanced cable management with integrated access cables or server interface modules. This switching system also includes a convenient on-screen display that allows easy system configuration and quick server selection. The advanced cabling automatically assigns and retains unique server names for each attached server, which simplifies installation and eases re-configuration.

With PS/2, USB, Sun and serial connectivity in one solution, the Avocent 8-port AutoView 1400 single-user, 8-port AutoView 1500 and 16-port AutoView 2000 multi-user KVM switches offer the flexibility needed for today's small office and mid-sized business networking environments. AutoView solutions integrate the Avocent field-proven analog KVM switching technology with affordable, smart cable management and a powerful on-screen display.

With AutoView KVM switches, your choices for simpler KVM switching, affordable cabling options, and easier access to servers and other network devices have never been better.

AutoView KVM switches offer affordable integrated access cabling and convenient KVM control for up to two local, simultaneous users.

AUTOVIEW SPECIFICATIONS

MECHANICAL
AutoView 1400/1500/2000
- **Height -** 1.75 in. (4.45 cm)
- **Depth -** 11.00 in. (27.94 cm)
- **Width -** 17.00 in. (43.18 cm)
- **Weight -** 8 lbs. (3.6 kg)
- **Style -** Rack mount

ENVIRONMENTAL / POWER
AutoView 1400/1500/2000
- **Operating Temperature -** 50° (10°C) to 122° (50°C)
- **Storage Temperature -** -20° (60°C) to -4° (140°C)
- **Operating Voltage -** 100 - 240 VAC Autosensing, 50/60 Hz
- **Computers -** IBM PC/AT, PC and 100% compatibles
- **Monitors -** XGA, XGA-II with adapter, 1600 x 1280 @ 75 Hz resolution
- **Peripherals -** PC keyboard, PC mouse, Microsoft Explorer mouse, Microsoft IntelliMouse family, IBM Scrollpoint, Logitech Mouseman Wheel, Logitech Trackman Marble Wheel, Logitech Marble FX and Kensington 4-button mouse

STANDARDS
- **Approved Agency -** UL FCC Class A, cUL, ICES Class A, CE, N, GS, IRAM, GOST, VCCI, Class A, MIC Class A, C-Tick

ORDERING DETAILS
AutoView 1400/1500/2000 KVM Switches
- **AV1400-001 -** 8-port, single user, w/OSD and rack mount kit
- **AV1500-001 -** 8-port, dual user, w/OSD and rack mount kit
- **AV2000-AM -** 16-port, dual user, w/OSD and rack mount kit
AutoView 1400/1500/2000 Cables
- **PS2IAC-7 -** 7' PS2 integrated access cable
- **USBIAC-7 -** 7' USB integrated access cable
- **PS2IAC-10 -** 10' PS2 integrated access cable
- **USBIAC-10 -** 10' USB integrated access cable
- **PS2IAC-15 -** 15' PS2 integrated access cable
- **USBIAC-15 -** 15' USB integrated access cable
AutoView 1400/1500/2000 Server Interface Modules
- **AVRIQ-PS2 -** Server interface module for VGA PS2 keyboard PS2 mouse
- **AVRIQ-SRL -** Server interface module for serial-based devices (requires UPD-AM power supply)
- **AVRIQ-USB -** Server interface module for VGA USB keyboard/mouse USB mouse
- **AVRIQ-VSN -** Sever interface module for VGA or 13W3, Sun keyboard/mouse

WARRANTY
- Two Years

This AutoView switching system also provides you with the added benefit of advanced cable management and a powerful on-screen display that allows convenient system configuration and quick server selection.
