

HDS 3005 NG/LP

Commercial Cold/Hot/Steam Electric High-Pressure Washer

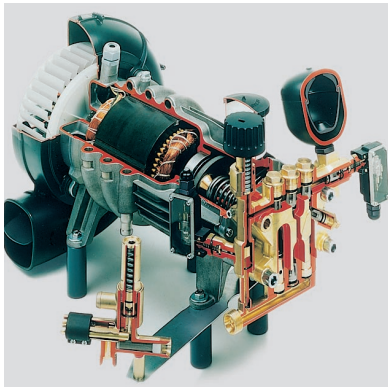

The HDS 3005 NG/LP incorporates a new generation of natural gas/propane fired electric high-pressure washers, raising performance, quality and reliability to a higher level. It features a convenient pull-out power tray for easy service and maintenance, an air- and water-cooled electric motor and remote control capability, making the HDS 3005 NG/LP one of the best units available.

Patented Kärcher air- and water-cooled, 4-pole **electric motor with overload protection**

Low 24 VAC protective control voltage

Kärcher **three piston, axial pump** with stainless steel valves and pistons with ceramic sleeves

Burner system - High-performance vertical heater coil (atmospheric burner system heating) with auto electronic ignition (Honeywell)

Central control panel with **easy-to-use controls**

Detachable side panels allow easy access to components

Chrome hose holder and built-in bracket for optional 200 ft. hose reel mount

Heavy-duty chassis with stainless steel electrical box cover, coil wrap and hood

Infinitely variable operating pressure, water volume, and temp control

Built-in anti-scale device

HDS 3005 NG/LP

Commercial Gas-Fired Cold/Hot/Steam Electric High-Pressure Washer

Technical Specs

Part Number

NG - 1.028-883.0 / LP - 1.028-884.0

Power Supply

220 V * / 3~ / 60 Hz / 9.6 HP

Operating Pressure

450 - 3000 PSI (Infinitely Variable)

Water Volume

2.4 - 4.5 GPM (Infinitely Variable)

Maximum Water Temp.

175°F / 285°F (Infinitely Variable)

Machine Weight Without Accessories

650 lbs

Machine Dimensions

41" x 24" x 52"

Warranty

2 year limited

Standard Accessories

- On/Off trigger gun
- 360° pivoting stainless steel spray wand
- Kärcher 25° Power Nozzle
- 50 ft. high-pressure hose with integrated swivel

* Can be converted to 440 V / 3~, conversion fee applies
