CleanStar® C60/C67 HPW PFA T-body 1" x 1"

Ultra pure PFA diaphragm valve 2/2 way, manually operated (C67) and pneumatically operated (C60) with zero deadleg PFA T-valve body

- T-body design minimizes "dead legs" reducing "chemical holdout" and rinse times.
- Eliminates the need for tee fittings, reducing associated pressure loss and overall cost of installation.
- Requires less mounting space, ideal for compact distribution boxes

Control Function

Control Pressure (PSI) Connection

Technical details refer to technical data sheet C60/C67 with straight through body.							2 + 3
