## INDICATEUR VPT

The INDICATEUR VPT, an innovative concept providing superior valve position indication, has a rugged design suited to withstand harsh plant environments and operations. The INDICATEUR offers the following unique features:

- Environmentally sealed indicator prevents fogging or entry of contaminants
- Clear cover is free from decals or paint that fade in sunlight or during plant washdowns
- Clear Ektar cover offers excellent chemical resistance and strength
- Tough glass-reinforced nylon construction with molded-in inserts
- Utilizes industry standard mounting pattern
- The industry's only "true" visual valve position indicator for 3-way valves - the indicator is fully adjustable to match the actual valve

### Visual Indicator Options

Black / Yellow		3-way Path O	
Green / Red		3-way Path T	
Red / Green		3-way Path F	
ANSI Red / White		4-way Path S	
ANSI Green / White		180° T-port	
ANSI Blue / White		180° L-port	
0-100% Digital		120°
