

Sprinter Chassis Inspection Vehicle

The Safest, Most Capable Rig For Field Inspections.

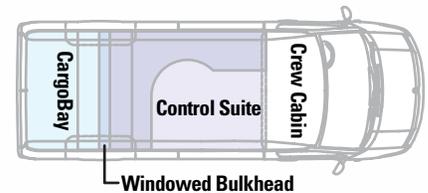

Outperforming conventional cargo vans, the rugged Sprinter Chassis Inspection Vehicle maneuvers like a car to get your crew and gear on site quickly. Ergonomic equipment presentation takes the back work out of setup, so you're inspecting in minutes. See for yourself why Sprinter is replacing vans in cities and municipalities, and among private contractors:

- **Short wheel base and tight turning radius make it easy to navigate alleyways, crowded streets, wooded areas and easements.**
- **Cargo bay's two-tiered, workbench-style equipment presentation minimizes risk of lifting/climbing injuries.**
- **Gate-mounted utility drawer organizes gear for quick setup.**
- **Efficient diesel engine and drivetrain carry 10 year/250,000 mile warranty, yielding super-low cost of ownership.**

Control Suite's Console, Cabinets & Floor Racks Ensure Easy Access to Video/Control Equipment.

Full Digital Video Support Enables Robust Video Analysis & Archiving.

Sound-Insulated Cabinet Houses 7000 W Generator

Sliding Shelf Stows Crawler & Wheels.

Dual Flood Lamps Illuminate Dark Areas.
