[PRINTABLE VERSION](#)

The Self-propelled Cherrington 3000 is a mid-sized ride-on Beach Cleaner, ideal for smaller beaches, private beaches, recreation areas, and other sand covered surfaces — even rock picking on horse arenas! It's very easy to maneuver in confined areas or just inches away from walls.

No additional tractor or tow unit is needed for this maneuverable, self-contained, portable beach cleaner!

The 3000 has a cleaning width of 3 ft., has all wheel drive, a zero-turning radius and is powered by a 24 hp diesel liquid cooled engine. The 3000 also features an open-air operator's station with Certified R.O.P.S. (roll over protection).

All functions are conveniently controlled from the operator's position. Frame mounted dual hydraulic cylinders raise and lower the digger points. Depth adjustments are made hydraulically and easy to install spacers provide accurate and consistent depth settings. The 3000's maximum cleaning depth is 4".

The 3000 comes with 3 separate quick-change screens for different sifting needs - 1/2" for fine, 5/8" for multi-purpose, 1" for seaweed, or the initial first pass cleaning.

The debris hopper has a capacity of 9 cu. ft. and is equipped with a hydraulic high lift that provides a maximum dump height of 5 feet, for convenient emptying into dumpsters or pick up trucks.
