

SUPERVISIONTM 140

Features & Benefits:

- Lightweight 1650' Kevlar-reinforced cable extends travel range.
- Inspects lines as small as 6" dia., and employs camera lift to maintain centerline view in lines up to 24" dia.
- Stainless steel crawler with steerable 6-wheel drive travels up to 75 fpm.
- Crawler weight boosts traction for improved inspection range.
- Rear-view camera helps prevent flips and aids in cable management.
- PipeBus control network supports remote diagnostics, plus various sensors and end effectors.
- SONDE emits 33 kHz, 512 Hz or 612 Hz signal.

Portable Control Pendant
With Integral 3" TFT Color LCD

Portable CCU with
Monochrome Diagnostics Display

- Zoom camera captures fine detail.
- Automatic reel pays out and retracts cable, preventing tangles.
- Interchangeable wheels, lamps and cameras adapt crawler to any size pipe.
- Inclination, pitch and roll sensors come standard.
- Crawler weighs 31 lbs.; measures 12.4" x 4.7" x 4.3"; has 110 mm wheel base; and submerges to 10 bar.

Rear-Viewing Camera

1650' (500m) Auto Cable Drum Controls

Stainless Head for Harsh Environments
