

# Sky-Wal II™ for Modular Drawer Workstations

Now, combine the ergonomic features of Lyon Sky-Wal II™ components with the versatility and convenience of Modular Drawer Workstations. Choose from three pre-engineered Sky-Wal II™ units with different Modular Drawer Workstation configurations to create work areas ideally suited to your operations and workers.

Some components included are:

- Tool trolleys that roll across the full width of each work station, putting tools within easy reach.
- Light fixtures to illuminate the entire work surface evenly.
- Adjustable shelves with shelf lips that allow four different positions (12° up, even, 15° down and 30° down) to hold tools, manuals, instruments and other items at different angles.
- Tote bars, providing clip rails for removable plastic bins that hold a variety of parts and other articles (plastic bins won't rust, rot or corrode and resist most solvents).
- Chrome finished wire shelf fences that allow upright storage of reference materials along the length or width of shelves.
- Electrical Raceways provide a convenient 6-outlet, power source at the work surface.
- Document Storage Cabinets deliver a generous, lockable storage area above the work surface.

**COLOR INFORMATION**  
These items only available in:

**in stock** **Wedgewood Blue**  
All steel components  
Add prefix BB to Cat. No.

*Unless otherwise noted, all Sky-Wal II™ components available in Wedgewood Blue.*
