RagRug

Sturdy — Takes a Beating Even in High-Traffic Areas

This Mat is made from recycled polypropylene and acrylic fibers, making it a great choice for use in areas where steady foot traffic might wear out an ordinary mat or rug that's become soaked with overspray.

Lasts Longer, so You Use and Spend Less

Because this durable Mat stands up to high-traffic abuse longer than regular mat, you can use it longer, which saves you money!

Tough Rug Stands Up to Punishment

No matter where you place this Mat, the high tensile strength lets it take all types of abuse even when it's fully saturated with fluids.

Dark Color Hides Grime

Dark-colored Mats absorb the grunge from oil, coolants, solvents and water without looking dirty.

HYC Helps you comply with 29 CFR 1910.22(a)(2), 29 CFR 1910.107(b)(3) and 29 CFR 1910.107(g)(2). See page 48 for details.

StitchBonded Mat

Ready for Rough Traffic

This tough Mat stays put and won't slide. Constructed from specially-stitched polypropylene to withstand even the roughest foot traffic. A true performer for heavy traffic areas.

Handles Heavy Wear

Because this Mat will take a beating while absorbing all types of fluids, it's ideal for situations where durability is an issue. Place it in walkways and areas that need to be clean, dry and safe all the time.

Tough Construction

This Mat is tough because of its zig-zag stitching. SpillTech took its regular Mat and added tight rows of stitching to create a Mat that stands up to heavy abuse but still provides the hard-working absorption power of regular SpillTech® Mat.

Long Life Saves Money

This is a strong, durable Mat that can stand up to heavy abuse — that means you can leave it down much longer than regular Mat, so you save money!

HYC Helps you comply with 29 CFR 1910.22(a)(2), 29 CFR 1910.107(b)(3) and 29 CFR 1910.107(g)(2). See page 48 for details.
