

L&T Shelving

Better Than Conventional Filing & Storage Equipment

60% More Storage Space

By utilizing vertical space rather than floor space, L&T saves 60% more floor space than conventional filing equipment.

Easily Expands With Your Needs

All L&T Shelving Systems incorporate the ability to be reconfigured at any time to meet changing needs. Its unique key-hole slot design allows expansion as your business needs grow.

L & T Shelving's unique design offers the ability to adjust shelves up or down to accommodate your exact requirements. This feature means you store more per square foot than other lesser shelving systems!

L&T Shelving

Assembles In Minutes...

Without fasteners!

Assembling L&T Is Literally a *snap!*

First, place uprights opposite each other held up with a shelf support. Then starting from the bottom, snap in two shelf supports and shelf reinforcements if needed for greater load capacity. Next place a shelf on the supports.

Second, working from the bottom-up, place an additional set of shelf supports in position and place a shelf on the supports. Continue until all shelves including the top are in position. Accessories such as dividers, back-stops front bases, etc may be added.

Third, add extra sections by using "T" uprights as common center posts and finish the row with "L" uprights. Install the shelves as before.

L&T Modular Drawer Easily Adapt To Storage Requirements

A Place For Everything and Everything in its Place

L&T Modular Drawers offer a unique storage capability that conforms to your materials, not the other way around. A variety of drawer sizes can be custom compartmentalized to provide instant organization. Drawers can be added to any 15", 24" or 30" depth L&T Shelving installation for even greater flexibility and storage capability. Fully progressive side-arm suspensions are rated for loads of up to 200 lbs. per drawer.

Dual Entry

With accessibility from both sides of the unit, the L&T Modular Drawer System maximizes workplace efficiency by allowing multiple users access simultaneously. Available for 30" and 36" deep units only.

12" Lateral File Option

Handles folders in letter or legal sizes. Available in 15" or 18" depths only.

Easiest Installation Ever

The new scissor-action bracket standard on L&T Modular Drawer Systems reduces installation time and complexity by 50%.

L&T Modular Drawer

The Ideal Storage Solution

Partitions/Dividers

Drawer partitions adjust without tools to create 2, 3, 4, 5, 6 and 8 equal rows or columns for easy organization. Dividers with easy-to-see angle labeling area, adjust in 1" increments to meet your exact storage needs.

Seven Drawer Heights

Select and mix drawer heights specifically sized to your storage requirement.

12" high drawer available only with Lateral Filing Systems.

L&T Modular Drawer System is the ideal storage solution where small items need to be stored along with filing or larger items. You'll also find that combining L&T Modular drawers with your shelving makes it possible to store 50% more small parts and media in the same space. Each drawer rides on a fully progressive side-arm suspension rated for loads up to 200 lbs. per drawer.

Limitless Storage Applications

Audio/Visual Materials

L&T offers a simple storage solution for audio/visual tapes, microfiche and CDs. Items are easy to locate and retrieve.

Computer Media

Growing computer use requires more storage space for ZIPs, CDs, tapes and disks. L&T provides an efficient solution.

Forms & Specialty Documents

Keep odd-sized business, legal and financial forms and documents clean and organized with versatile L&T Modular Drawers.

Collections & Artifacts

L&T Modular Drawers provide effective space-saving storage solutions for even the most unique applications.
