Protect your employees and property with proper storage of flammable and hazardous liquids in the right cabinets and sizes for your workspace.

Undercounter cabinet (5467)
has polyethylene shelf and bottom tray to contain inadvertent spills.

5465

5470

Dual 2" diameter threaded vents with fire baffle and cap provide for external exhaust.

Large warning labels!

Double wall, 18-gauge welded steel construction with 1½" air space between walls offers fire resistance.

Baked on enamel Safety Yellow finish resists chipping, withstands hard knocks.

Technical/Ergonomic Features

- Conforms to NFPA Fire Code No. 30 and OSHA standards
- ½" shelf adjustment maximizes storage versatility inside cabinets.
- Ribbed, galvanized steel shelves deliver load capacity of 225 lbs. per shelf.
- All-welded, double wall construction (with 1½" of insulating air space to offer fire resistant protection)
- Three-point latching system with key lock.
- Self-closing doors have fusible link that melts when ambient temperature reaches 160°, releasing the latch holding the door open.
- Screened flame arrester vents on both sides of cabinets are threaded to accept standard 2" pipe for external exhaust.
- Ground wire connection (wiring not included) deters static build-up.
- Zinc-plated leveling legs included.

Includes brackets for wall-mounting.

Polyethylene Shelf Tray for cabinet 5467: **No. 5567**
Polyethylene Bottom Tray for cabinet 5467: **No. 5568**

Both trays include self-threading screws.

CONFORMS TO OSHA STANDARDS
