

# 1152

## Wall Mounted Drinking Fountain

### FEATURES & BENEFITS

#### Bubbler Valve

Polished chrome-plated brass cartridge valve which allows for top access stream adjustment as well as cartridge and strainer access, and is designed with a shielded, anti-squirt orifice that provides a steady sanitary source of water.

#### Mounting

Wall-mounted design makes for a space efficient fountain which is supported by a cast-aluminum wall bracket.

#### Construction

Stainless steel basin with a high-polished finish compliments almost any setting, and it also resists stains and corrosion.

### OPTIONS

- Bubbler Head: Model 5725 EnviroGard™ bubbler is a polished chrome-plated solid brass bubbler head with stainless steel water activated pop up canopy. (Pat.# 7,025,282)
- Filter: Model 6426, 12" x 2", in-line lead removal element that reduces lead from incoming water supply.

To see all options for this model, visit [www.hawesco.com](http://www.hawesco.com).

### SPECIFICATIONS

Model 1152 wall mounted drinking fountain shall include a polished stainless steel round basin, polished chrome-plated brass push-button bubbler valve with flow adjustment, anodized cast-aluminum wall bracket, and chrome-plated 1-1/4" O.D. tailpiece.

### APPLICATIONS

Perfect for either public or private settings, Model 1152 drinking fountain is great for those looking to obtain a full functioning fountain with a simplistic design. Unit fits nicely into campground settings and other environments that are in more remote areas where drinking fountain facilities are still needed. Corrosion resistant stainless steel bowl and push button valve with adjustable stream makes for just the right combination of protection and adjustability needed in a basic fountain.

Haws manufactures drinking fountains, electric water coolers and electric drinking fountains to be lead-free by all known definitions including ANSI/NSF Standard 61, Section 9, California Proposition 65, and the Federal Safe Drinking Water Act.

# 1201

## Wall Mounted Drinking Fountain

### FEATURES & BENEFITS

#### Front Access

With its patented (Pat.# 6,981,692) push-button valve assembly which allows for front access stream adjustment as well as cartridge and strainer access, this fountain offers the ultimate in ease of maintenance.

#### Bubbler Head

Polished chrome-plated brass bubbler head features an integral basin shank for added strength, and is equipped with a shielded, anti-squirt orifice that provides a steady sanitary source of water.

#### Integrated Trap

Spacious fountain design allows for the trap to be internally mounted which allows for easy access, and aids and reduces the installation process.

#### Quality Control

Fountain is pre-built and fully water and pressure tested to ensure no leaks and proper function for reduced installation time and added peace of mind.

#### Construction

Beautiful white vitreous china with an integral back splash is suitable for most indoor applications where aesthetics are a consideration.

### OPTIONS

- Filter: Model 6426, 12" x 2", in-line lead removal element that reduces lead from incoming water supply.
- Chiller: Model HCR8, chiller provides for instantaneous cooling to meet a continuous demand for chilled water.

To see all options for this model, visit [www.hawsc.com](http://www.hawsc.com).

### SPECIFICATIONS

Model 1201 wall mounted drinking fountain shall include a white vitreous china basin with a 7" integral back splash, push-button operated valve with front-accessible cartridge and flow adjustment, polished chrome-plated brass bubbler head, polished chrome-plated brass waste strainer, and 1-1/4" IPS trap.

### APPLICATIONS

Perfect for either public or private settings, our gleaming white vitreous china series is one of the most attractive wall mounted fountains Haws produces. This unit is precisely mounted, making it a nice addition to any surrounding. Elegant gloss finish and color consistency throughout the china maintain the fountain's overall appeal so it always remains looking as new as it did when it was installed. Specifically, this type of wall mounted drinking fountain may be placed in settings such as: schools, office buildings, libraries, and other indoor environments.

Haws manufactures drinking fountains, electric water coolers and electric drinking fountains to be lead-free by all known definitions including ANSI/NSF Standard 61, Section 9, California Proposition 65, and the Federal Safe Drinking Water Act.

## Wall Mounted Drinking Fountain

### FEATURES & BENEFITS

#### Front Access

With its patented (Pat.# 6,981,692) push-button valve assembly which allows for front access stream adjustment as well as cartridge and strainer access, this fountain offers the ultimate in ease of maintenance.

#### Bubbler Head

Polished chrome-plated brass bubbler head features an integral basin shank for added strength, and is equipped with a shielded, anti-squirt orifice that provides a steady sanitary source of water.

#### Integrated Trap

Spacious fountain design allows for the trap to be internally mounted which allows for easy access, and aids and reduces the installation process.

#### Construction

Heavy-duty cast iron bowl with a glossy white enamel finish is designed for the toughest of applications, and at the same time is gentle to all users with its soft rounded corners. Unit also ships with vandal-resistant bottom plates to provide added peace of mind.

### OPTIONS

- Filter: Model 6426, 12" x 2", in-line lead removal element that reduces lead from incoming water supply.
- Mounting: Model 6700 universal mounting plate shall include a 3/16" steel pre-drilled and threaded mounting plate along with all-thread studs, nuts, and washers for use with many Haws single bubbler fountains.
- Support Carrier: Model 6800 universal support shall include dual 3/32" steel tube supports with integral 3/16" steel mounting feet along with u-bolts and hardware.
- Chiller: Model HCR8, chiller provides for instantaneous cooling to meet a continuous demand for chilled water.

To see all options for this model, visit [www.hawsc.com](http://www.hawsc.com).

### SPECIFICATIONS

Model 1311 wall mounted barrier-free drinking fountain shall include a white enameled-iron basin, push-button operated valve with front-accessible cartridge and flow adjustment, polished chrome-plated brass vandal-resistant bubbler head, polished chrome-plated brass vandal-resistant waste strainer, vandal-resistant bottom plate, and chrome-plated 1-1/4" IPS trap.

### APPLICATIONS

Perfect for either public or private settings, our gleaming white enameled iron series is one of the sturdiest wall mounted fountains Haws produces. This series is precisely mounted, making it a nice addition to any surrounding. Elegant gloss finish and color consistency throughout the enameled iron maintain the fountains overall appeal so it always remains looking as new as it did when it was installed. Specifically, this type of wall mounted drinking fountain may be placed in settings such as: parks, schools, and other indoor/outdoor environments where the temperature remains above freezing.

Model meets all current Federal Regulations for the disabled including those in the Americans with Disabilities Act. Haws manufactures drinking fountains, electric water coolers and electric drinking fountains to be lead-free by all known definitions including ANSI/NSF Standard 61, Section 9, California Proposition 65, and the Federal Safe Drinking Water Act.

## Wall Mounted Drinking Fountain

### FEATURES & BENEFITS

#### Front Access

With its patented (Pat.# 6,981,692) push-button valve assembly which allows for front access stream adjustment as well as cartridge and strainer access, this fountain offers the ultimate in ease of maintenance.

#### Bubbler Head

Polished chrome-plated brass bubbler head features an integral basin shank for added strength, and is equipped with a shielded, anti-squirt orifice that provides a steady sanitary source of water.

#### Integrated Trap

Spacious fountain design allows for the trap to be internally mounted which allows for easy access, and aids and reduces the installation process.

#### Construction

Cast aluminum bowl with integral mounting brackets along with a powder-coated finish combine for a strong long lasting product, while a vandal-resistant bottom plate discourages unwanted access.

#### Finish

Gleaming white powder-coated finish is attractive and functional for any situation, and the soft rounded corners provide added safety and peace of mind.

#### High Capacity Basin

Combined low profile design and the use of three bubblers supply the needs of many, which is perfect for schools and other high traffic areas.

### SPECIFICATIONS

Model 1408 wall mounted drinking fountain shall include a white powder-coated cast aluminum basin with integral mounting brackets, push-button operated valves with front-accessible cartridge and flow adjustment, triple polished chrome-plated brass vandal-resistant bubbler heads, polished chrome-plated brass vandal-resistant waste strainer, vandal-resistant bottom plate, and chrome-plated 1-1/2" IPS trap.

### OPTIONS

- Bubbler Head: Model 5725 EnviroGard™ bubbler is a polished chrome-plated solid brass bubbler head with stainless steel water activated pop up canopy. (Pat.# 7,025,282)

- Chiller: Model HCR8, chiller provides for instantaneous cooling to meet a continuous demand for chilled water.

To see all options for this model, visit [www.hawasco.com](http://www.hawasco.com).

### APPLICATIONS

Perfect for either public or private settings, our triple bubbler series is a great fit in any indoor/outdoor environment. This unit is the perfect fit for high traffic areas where there is a greater need for multiple drinking stations. Powder-coated finish helps maintain the fountain's overall appeal so it always remains looking as new as it did when it was installed. Specifically, this type of wall mounted drinking fountain may be placed in settings such as: parks, schools, and other environments where the temperature remains above freezing.

Haws manufactures drinking fountains, electric water coolers and electric drinking fountains to be lead-free by all known definitions including ANSI/NSF Standard 61, Section 9, California Proposition 65, and the Federal Safe Drinking Water Act.

# 1409

## Wall Mounted Drinking Fountain

### FEATURES & BENEFITS

#### Front Access

With its patented (Pat.# 6,981,692) push-button valve assembly which allows for front access stream adjustment as well as cartridge and strainer access, this fountain offers the ultimate in ease of maintenance.

#### Bubbler Head

#### High Capacity Basin

Combined low profile design and the use of three bubblers supply the needs of many, which is perfect for schools and other high traffic areas.

### SPECIFICATIONS

Model 1409 is a three bubbler wall mounted, barrier-free drinking fountain made of white powder-coated cast aluminum. Unit shall include recessed push-button valves with front-accessible flow adjustments and cartridge and strainer access, polished chrome-plated brass bubbler heads locked to the bowl and solid chrome-plated brass waste strainer. Unit shall also include a vandal-resistant bottom plate and a 1-1/2" NPT trap.

### APPLICATIONS

Perfect for schools, sports venues, shopping malls and other high traffic areas where mounting height and durability matter. The 1409 offers a solution for wheelchair access while providing robust vandle-resistance. When installed at the appropriate height, the heavy-duty, yet lightweight design meets all current guidelines in the Americans with Disabilities Act without the need for installation reinforcement generally needed for significantly heavier cast iron fountains. The vandal-resistant bottom plate and waste strainer also bring added peace-of-mind.

Model meets all current Federal Regulations for the disabled including those in the Americans with Disabilities Act. Haws manufactures drinking fountains, electric water coolers and electric drinking fountains to be lead-free by all known definitions including ANSI/NSF Standard 61, Section 9, California Proposition 65, and the Federal Safe Drinking Water Act.
