Patent Pending Base Design

Performance Plus Industrial and Utility chairs are now equipped with a patent-pending, ergonomic height adjustment mechanism that allows easy height adjustment and secure locking.

Clutch Control

Seat Back

Seat Range 19" -36"

Adjustable Collar

Rugged Footrest

Performance Plus Features

Independent clutch controls allow infinitely variable tilt adjustments to both seats and backs. The pneumatic lift allows an automatic 8" adjustment while you're seated. If you need more height, the manually adjustable collar gives you up to 10 additional inches.

Seat backs with ventilation ridges are designed to promote good posture and lumbar support. Softer duramer of polyurethane seats and backs provide exceptional durability and long term support. New seats and backs are 40% thicker for greater comfort.

Rugged polyurethane footrests provide an extra measure of safety. They're securely mounted to heavy 14 gauge 1 1/4" tubular steel bases. Five high impact, non marking glides are standard. Casters are available as an option.

LYON'S HEAVIEST-DUTY PERFORMANCE PLUS CHAIR

LYON
LIMITED
10-YEAR
WARRANTY
