

1025

Wall Mounted Drinking Fountain

FEATURES & BENEFITS

Front Access

With its patented (Pat.# 6,981,692) push-button valve assembly which allows for front access stream adjustment as well as cartridge and strainer access, this fountain offers the ultimate in ease of maintenance.

Integrated Trap

Spacious fountain design allows for the trap to be internally mounted which allows for easy access, and aids and reduces the installation process.

Quality Control

Fountain is pre-built and fully water and pressure tested to ensure no leaks and proper function for reduced installation time and added peace of mind.

Bubbler head

Patented (Pat.# 7,025,282) EnviroGard™ polished chrome-plated brass bubbler head provides sanitary service in the worst of conditions. The stainless steel shroud covers the orifice surface until the water is activated, and covers it again after use.

Drain Clean-Out

Top-down access to the drain allows the fountain to be cleaned without taking the unit apart, which is ideal for outdoor settings that are high in drain-clogging sediment like leaves, garbage, and other debris.

Construction

Heavy-duty 11 gauge galvanized steel with a green powder-coat finish incorporates a recessed push-button and welded bubbler guard to provide extra durability, and a vandal-resistant bottom plate for added peace of mind. Stainless steel basin with a high-polished finish compliments almost any setting, and it also resists stains and corrosion.

SPECIFICATIONS

Model 1025 wall mounted barrier-free drinking fountain shall include a stainless steel basin contained in an 11 gauge green powder-coated galvanized steel wall bracket, push-button operated valve with front-accessible cartridge and flow adjustment, polished chrome-plated brass vandal-resistant sheilded bubbler head with protective bubbler guard, polished chrome-plated brass vandal-resistant waste strainer with top-down access, vandal-resistant bottom plate, and chrome-plated 1-1/2" IPS trap.

APPLICATIONS

Perfect for either public or private outdoor settings, Model 1025 is a great fit in areas where aesthetics are important to the overall appeal of the architecture. Suitable in areas where weather conditions exist, this series is precisely mounted to make it a nice addition. Powder-coated finish help to maintain the fountains overall appeal so it always remains looking as new as it did when it was installed. Specifically, this type of wall mounted drinking fountain may be placed in settings such as: parks, schools, and other outdoor environments where the temperature remains above freezing.

Model meets all current Federal Regulations for the disabled including those in the Americans with Disabilities Act. Haws manufactures drinking fountains, electric water coolers and electric drinking fountains to be lead-free by all known definitions including ANSI/NSF Standard 61, Section 9, California Proposition 65, and the Federal Safe Drinking Water Act.

OPTIONS

- Filter: Model 6426, 12" x 2", in-line lead removal element that reduces lead from incoming water supply.
- Mounting: Model 6700 universal mounting plate shall include a 3/16" steel pre-drilled and threaded mounting plate along with all-thread studs, nuts, and washers for use with many Haws single bubbler fountains.
- Support Carrier: Model 6800 universal support shall include dual 3/32" steel tube supports with integral 3/16" steel mounting feet along with u-bolts and hardware.

Wall Mounted Drinking Fountain

FEATURES & BENEFITS

Front Access

With its patented (Pat# 6,981,692) push-button valve assembly which allows for front access stream adjustment as well as cartridge and strainer access, this fountain offers the ultimate in ease of maintenance.

Bubbler Head

Polished chrome-plated brass bubbler head features an integral basin shank for added strength, and is equipped with a shielded, anti-squirt orifice that provides a steady sanitary source of water.

Mounting

3/16" steel mounting plate with supplied mounting hardware provides a solid unit base and allows for easy installation to framed wall.

Integrated Trap

Spacious fountain design allows for the trap to be internally mounted which allows for easy access, and aids and reduces the installation process.

Drain Clean-Out

Top-down access to the drain allows the fountain to be cleaned without taking the unit apart, which is ideal for outdoor settings that are high in drain-clogging sentiment like leaves, garbage, and other debris.

Construction

Heavy-duty vibra-cast reinforced concrete construction with exposed aggregate finish provide a perfect addition to outside environments, along with vandal-resistant bottom plate for added peace-of-mind. Stainless steel basin with a high-polished finish compliments almost any setting, and it also resists stains and corrosion.

Access

Low profile designed arm and integral trap that is set back for knee clearance allows for adult or child ADA access (when installed at appropriate heights).

SPECIFICATIONS

Model 1047 wall mounted adult or child barrier-free drinking fountain shall include a stainless steel basin contained in a vandal-resistant, vibra-cast reinforced concrete wall bracket with exposed aggregate finish, push-button operated valve with front-accessible cartridge and flow adjustment, polished chrome-plated brass vandal-resistant bubbler head, polished chrome-plated brass vandal-resistant waste strainer with top-down access, vandal-resistant bottom plate, and chrome-plated 1-1/2" IPS trap.

APPLICATIONS

Perfect for either public or private settings, our concrete vibra-cast series is a great fit in "open-air" environments. Suitable in areas where weather conditions may be cause for concern, this series stands strong from the forest to the beach. Reinforced concrete vibra-cast design not only protects from corrosion, its Portland Gray color makes it recognizable enough to locate without compromising the outdoor atmosphere. Specifically, this type of wall mounted drinking fountain may also be placed in settings such as: parks, schools, and other recreational outdoor environments where the temperature remains above freezing.

Model meets all current Federal Regulations for the disabled including those in the Americans with Disabilities Act. Haws manufactures drinking fountains, electric water coolers and electric drinking fountains to be lead-free by all known definitions including ANSI/NSF Standard 61, Section 9, California Proposition 65, and the Federal Safe Drinking Water Act.
