

**Bung Access Funnel** The Bung Access Ultra-Funnel allows access to the 3/4" drum bung. Installation of our pop-up liquid level gauge in the 3/4" bung allows visual monitoring of waste level in the drum and helps you plan ahead for drum removal. It also eliminates the mess caused by overfilling!

Unique zig-zag channeled surface diffuses splashing. Level surfaces allow filters, paint cans, buckets and bottles to remain upright while draining passively.

Optional hinged cover keeps dirt and unwanted materials out of your waste stream. It's also lockable for secure drum management.
