

# Six-Tier Employee Lockers for the Retail Industry

*Shipped Set Up, Ready to Use!*

***The solution that pays for itself in months!***

Lyon retail industry lockers with Digilock STS allow employee lockers to be shared by multiple shifts, therefore reducing the number of lockers and real estate required for the lockers, while providing a significant deterrent to employee theft.

Two stock sizes from which to choose, shipped set up and ready to use with digital locks installed in banks of 6 or 18 openings. Stock finish is Putty.

Secure them to the wall and you're ready to go. It's as easy as that!

**With Digilock, when a lock is unlocked, it is considered available and can be locked with any 4-digit code by any employee. Digital locks are programmed to unlock after 12 hours of non-use to prevent a user from taking over a locker after a shift.**

Steel Lockers

## Check Out These Benefits:

- Loss Prevention - Lockers can be audited by using the management bypass key
- Shared use - Lockers can be shared between shifts
- Reduces the total number of lockers required at a facility
- Digital locks are programmed to unlock after 12 hours of non-operation
- Low cost retail solution that quickly pays for itself within the first few months of implementation
- Helps deter employee theft as lockers can be audited at any time without disturbing the user code
- Eliminates lost keys, unavailable lockers, bolt cutters and the waste of management's time

## 6-Compartment or 18-Compartment Digilock Locker

Overall size per opening - 12"w x 12"d x 12"h

**No. PP5332RLSU** - 1 Wide

**No. PP53323RLSU** - 3 Wide

Overall size per opening - 12"w x 18"d x 12"h

**No. PP5362RLSU** - 1 Wide

**No. PP53623RLSU** - 3 Wide
