

Shadow-RT

The Shadow-RT is designed to provide light quickly over any situation, and made to fit a variety of vehicles that would benefit from quick, quality lighting such as fire engines, chief's vehicles, and police vans. The Shadow-RT has been designed to be highly-adaptable, with two arm lengths and the ability to customize number and wattage of lamp heads and to rotate 355°.

- ▶ Full deployment in under 15 seconds
- ▶ All-weather (not affected by ice buildup, high winds, blowing dust)
- ▶ Ability to overhang edge of vehicle
- ▶ Umbilical remote controller with 6' cord
- ▶ All-electric (no air or hydraulics required)
- ▶ Shadow-RT rotates 355°
- ▶ Maintenance-free
- ▶ Five-year warranty
- ▶ NFPA 1901 Compliant

Cat#	Description	Power Requirements	Price
BE058	Shadow-RT 4x110watt	35 amps, 12 vdc	\$4,249.95

AS423	Spare Handheld Controller	\$479.95
AS424	Custom Arm	\$549.95

"Shadow" by Command Light

Now you can get quick, low-cost lighting that electrically tilts into place, greatly increasing the efficiency of rescue personnel and enhancing public safety. One unit on each side of a pumper provides more light, faster and safer, than four pole lights. The "Shadow" is designed to be highly adaptable, with the ability to customize the arm, length, and the number and wattage of lamp heads. Fit a "Shadow" to your department's lighting needs. *Ship. wt. 80 lbs.*

- ▶ Full deployment in under 15 seconds
- ▶ Use in street light position
- ▶ Umbilical 6' cord remote controller
- ▶ All-electric, no hydraulics
- ▶ No scheduled maintenance

Specify strobe color

AS419	Shadow Light, 3x500 watt	\$1,940.95

Darley Quartz Halogen Telescoping Floodlight

Our Own Light Made for Many Departments Around the World

One-piece lamp head uses common 500-watt quartz lamp. Wide beam reflector and lamp are protected by a heat and impact-resistant glass. Galvanized fittings and a silicone rubber gasket makes this unit weatherproof and corrosion-resistant. Vertical swivel and base clamp are held by large knurl plastic knobs, easy for gloved hands to use. Stainless steel tube is 1 1/4" in diameter and 40 1/2" long. Cast aluminum base holds light securely at any height. *Floodlight is available with coil cord or straight cord mounted under lamp head. Ship. wt. 20 lbs.*

U848	Telescoping Floodlight with Coil Cord	\$255.95
S644	Telescoping Floodlight with Cord Mounted Under Lamp Head	\$220.95
