## Quic-Choc® Folding Wheel Chock

This new folding aluminum wheel chock requires only a 6" x 10 1/2" W x 20 3/8" D area for storage. Can be stored under fire or rescue vehicles. The collapsible design allows the chock to lock in the open position simply by pulling out the back casting and pushing down. Just release the safety latch to close back into the folding position. Convenient carrying handle makes transport and placement of chock a snap. Made of high-tensile strength aluminum with rear opening, hand grip and a double row of rugged teeth to grip almost any surface. Meets applicable NFPA standards.

▶ Can be used with tires up to 44" in diameter in the open position

AG083	Folding Wheel Chock	\$235.95
AG084	Horizontal Holder	\$70.95

### Convert Your Wheel Chock for Wildland Fire Fighting

## ManSaver Apparatus Bars

Simple safety bars will help prevent or reduce injuries due to falling off the apparatus in the excitement of operations, in darkness or operating in wet conditions. It is designed to be mounted across the open walk-throughs of pumpers. It's spring loaded so that it will always return to the horizontal position. To enter, simply push the ManSaver in or up; to exit swing it up.

Bars push in or swing up

Made of aluminum extrusion and aluminum bronze castings, making it rust-proof. Covered with layer of foam and tough rip-stop red or yellow vinyl outer covering. Ship. wt. 8 lbs.

Specify length: 14"-36" even sizes

WA23	ManSaver Safety Bar	\$299.95/ea.
